Clinical Laboratory Technologist Restricted License Form 4

Attestation of Training Program Content in Flow Cytometry/Cellular Immunology

Applicant Instructions

Complete Section I. Review and complete Section II with the Director of the Flow Cytometry/Cellular Immunology Training Program in which you want to participate. Be sure to sign and date the applicant attestation and ask the Training Program Director to return all pages of the form to the Office of the Professions at the address at the end of the form. **This form will not be accepted if returned by the applicant.**

Section I: Applicant Information

OG	ction ii. Trailing Program illionna	non (Gontinaca)				
3.	The applicant and the Training Program Director must initial below indicating that all the following Training Program requirements will be met.					
	The Training Program will cover laboratory methods in Flow Cytometry/Cellular Immunology, including the technique for counting, sorting and characterization of cells suspended in a fluid stream based on their physical properties and expression of cell surface molecules; general laboratory principles and skills; infection control and aseptic technique; instrumentation and equipment; quality control and quality assurance; the basic principles of flow cytometry, including specimen preparation, fluidics and electronics; fluorochrome selection; antibody selection; the design of flow cytometry procedures, including routine standardization and quality management; and specific clinical applications. The Training Program will only include hands-on laboratory testing services authorized by a Department of Health Clinical Laboratory Permit in the category of Cellular Immunology.					
	Applicant Initials	Training Program Director Initials				
	The Training Program will be at least 1750 hours (1 year) and will not involve any testing or procedures on specimens which are the restricted license category of Flow Cytometry/Cellular Immunology.					
	Applicant Initials	Training Program Director Initials				
	The Training Program will provide continuous on-site personal supervision and training by qualified staff whenever the Applicant per any clinical laboratory services. The staff shall meet the following qualifications: (1) hold a DOH issued Laboratory Director Certification in Cellular Immunology or (2) be a New York State licensed clinical laboratory technologist or physician who qualifies a "laboratory supervisor" under DOH regulations (10 NYCRR section 58-1.4) and who is authorized by the Clinical Laboratory to perform the Company of the Clinical Laboratory the Clinical Labor					
	Applicant Initials	Training Program Director Initials				
Description of Program: Describe how the Training Program will be taught (i.e., readings, lectures, supervised hands-on clinical practice) including educational resources (i.e., specific SOPs, textbooks, online coursework) to be used to teach each required topic described in Item 3 above as well as any additional flow cytometry/cellular immunology topics to be covered by the Training Program. Describe how the Training Program will evaluate the trainee's learning and competency for each Training Program topic. The Training Program description should also include a tentative amount of time training will occur each week and the plan for supervising the trainee during hands-on training in the clinical laboratory, including the positions of staff involved in supervision.						
Ар	plicant Attestation					
I hereby attest that the information I provided on this form is accurate and complete, and that I understand the above-described Training Program requirements must be met to successfully complete the training program.
